

[Program Stock Barang Php Include Html](#)

The screenshot shows the dashboard of an "Asset Management System". At the top, there is a banner with icons for a laptop, a CD/DVD, a server tower, and a desktop computer, with the text "Asset Management System" in orange. Below the banner is a navigation bar with tabs: Home, Manage Users, Manage Labs, Stocks, Hardware, and Software. On the left side, there is a vertical menu with the following items: Dashboard, Assignment, Vendors List, Category List, Search, and Logout. The main content area has a heading "Welcome to Asset Management System" and a sub-heading "Choose a menu from the left navigation to get started". There are four informational boxes arranged in a 2x2 grid:

- Hardware Details:** Choose a menu from the left navigation to get all property details, add property, edit property or delete it. You can view the property list by property categories, view thumbnail of Property.
- Software Details:** Start from here to get the details of banks listed in a city. You can add bank, remove bank, or even modify its name, address. Remember deleting a bank will delete all the properties.
- Search Stocks:** Get the list of a city available in Maharashtra State. View city details, Add city or delete it completely. Remember, deleting a city will delete entire property records in it.
- Register Users:** View the list of an admin user(s). An admin can create an admin, sub-admin, sub-admin can't create an admin, or sub-admin. Access privilege is given to all the roles with responsibility.

My Design will be redy with grid that responsive website required, i need this website to be responsive 5.. Sekali lagi kasus dari website yang nanti akan dibuat adalah, Stock harus terintegrasi antara back end Open Cart dengan proram MYOB.. Estimate 1000+ contents to be uploaded (input) by you (photo + price + text of produt detail) 6.

Program MYOB (v 13) has already used and running now, there are 2000 items inside, (is there any requirement to upgrade the version? I will provide website design (PSD file) (8 pages designed, Home, Information, Katalog, product detail, contact us, login page, news dan shopping cart), include guide to buttons interaction, rest of all using default from open cart 4.
